Now, Therefore, Be It Resolved, that the Board of Supervisors of the County of Ulster request that the following described highway be indicated upon the County Road Map and that the same be constructed and improved as a County Road as provided in Article VI of the Highway Law:

Beginning at County Road No. 79 on the East and running thence northwesterly a distance of about 1.25 miles. The southerly bounds being adjacent to and northerly from the property now owned by the U. Whereas, said resolution was duly adopted, and

Whereas, the abutments for said bridge and the easterly approach thereto were completed during the year 1947, and

Now, Therefore, Be It Resolved, that a committee of three (3) members of this Board of Supervisors be appointed by the Chairman to consult with the County Superintendent of Highways for the pupose of facilitating the completion of said County Bridge No. 48.

4. Analysis and evaluation of the findings.

This report does not contain a complete description of all of the aspects of the hospital administration which were studied; rather it is a review of only certain significant features pertaining to the physical plant, the medical administration and the business administration, followed by recommendations.

Please be assured that this Department desires, through personal visits, through surveys, through interhospital conferences and in any other way passible, to develop a program of reciprocal benefits between local tuberculosis hospitals and the Department, and

thus to enhance the conduct of the tuberculosis control program in the entire state.

Physical Plant

The appearance of the hospital and adjacent lawn area is attractive.

Services of the Kingston Fire Department are available in case of fire.

Medical Administration

The number of patients now receiving clinic service indicates a progressive growth in the past several years. Further, the clinic is now able to offer diagnostic facilities for all types of pulmonary disease. This is in keeping with the present-day concepts of the role of tuberculosis hospitals in the medical activities of the community. However, it was reported that there seems to be a trend toward the referral of an unduly large number of patients with nontuberculous pulmonary disease to the outpatient department of the hospital for special diagnostic procedures. The prevailing practice elsewhere is to perform all indicated procedures to establish a diagnosis in every patient suspected of having tuberculosis. However, where a suspicion of tuberculosis has been reasonably disproved, any further studies and the subsequent management are carried out by other community medical services. The tuberculosis hospital staff may serve as consultants to such other services.

Business Administration

The cook has charge of the food stockroom. The stockroom for certain other supplies such as paper goods, medications, etc. is taken care of by a maintenance department employee under the general supervision of the Business Manager. There is no complete perpetual inventory record. Stock requisition forms are not used.

All purchases are not centralized through the Business Office. Purchases in a large degree are from retail merchants. Meats are obtained in retail cuts with the exception of ham and bacon. Exceptions are such items are drugs, etc.

The Business Manager also acts as Housekeeper.

Recommendations

Consideration should be given to carrying out the recommendations made by the New York Fire Rating Organization on the basis of their survey of May 2, 1950 to the extent that conditions permit.

It would seem that the increasing demands on the hospital staff would warrant a critical appraisal of the extent and type of medical services offered, and particularly the clinic service.

It is suggested that consideration be given to having one individual in charge of all stockrooms, under the supervision of the Business Manager, and to establishing perpetual inventory records in the Business Office.

It is suggested that all ordering and purchasing, including food, be made by the Business Office, and that consideration be given to possible savings on certain commodities by purchasing them from wholesale outlets, including wholesale cuts in meats.

It is suggested that some thought be given to changing the present practice whereby the Business Manager is responsible for the direct supervision of housekeeping personnel and of housekeeping activities; this would be contingent upon adoption of the suggestion regarding stock control and the added Business Office responsibilities involved.

These recommendations are made for the purpose of helping you to provide modern medical care for the tuberculous citizens in your area. If you feel that any of these recommendations can not be carried out because of local circumstances, we would be glad to review them further with you. We would like to have a report from you on the steps you take to follow out these recommendations.

Sincerely yours,

WILLIAM A. BRUMFIELD, JR., M.D.

Dear Sirs:

Mr. Morris of this department inspected the Ulster County farm on October 21, 1951 and his report indicates that all crops were good, with corne specially so.

No dairy herd is kept on this farm and milk for the institution is purchased. A Hereford beef herd of seventeen breeding animals and growing stock is maintained.

All horses have been disposed of and the entire farm work is done with tractor.

There were 110 swine on the farm at the time of inspection. They are grown on rotated pasture during the summer and supply the institution need for pork. The piggery and surroundings are in good condition and well kept.

Three hundred laying hens are maintained in a comfortable poultry house that is well lighted and ventilated and supplied with the necessary equipment for feed and water. The flock is renewed by the purchase of baby chicks and home raising of pullets.

The garden supplied the institution with summer vegetables and a supply for canning and deep freeze. Root crops are also grown for winter storage. All potatoes required at the institution are raised on the farm.

Extensive repairs have been made to the buildings during the

past year and crops have been above average. The farm is well managed and presents a good appearance.

Very truly yours,

STATE OF NEW YORK
STATE DEFENSE COUNCIL
CAPITOL - ALBANY

January 4, 1951

Board of Supervisors
Ulster County
Kingston, New York

Gentlemen:

Enclosed is a copy of a Resolution adopted by the New York State Defense Council on December 13, 1951, relating to the necessity for immediate and full support of current campaigns for heavy scrap metals and for support of local programs that might be organized in the future for the collection of tin cans or such other items as might be required. Your attention is particularly called to the direction in the Resolution that agencies of State and Local government give immediate and full support to all authorized scrap metal campaigns.

The current campaigns seek heavy scrap metal in the form of obsolete equipment, machinery or facilities in business and industrial plants, in yards of dealers of wrecked automobiles, on farms, and in the possession of governmental agencies and public utility corporations. Door to door collections of household scrap are NOT desired, at present. A definition of "heavy scrap metal" appears at the end of the Council's resolution.

Where they do not already exist, local scrap mobilization com-

mittees should be organized through local Chamber of Commerce participation to press campaigns for scrap from industry and business and for the sale thereof to scrap metal dealers.

The need for scrap metal is extremely urgent and your immediate assistance in aiding the scrap metal campaigns is badly needed. The defense effort, the need for metals for civilian uses and necessary public works, such as highways, schools and other construction, continuance of industries using metals and employment therein, are dependent upon the adequacy of the amount of scrap metals which is supplied to mills and foundries.

Your aid may take various forms, such as locating municipally-owned scrap metal and having it sold to scrap metal dealers, assisting in the organization and efforts of local scrap mobilization committees, publicizing the campaigns, and requesting public officers and employees, **especially those having field or inspectional duties,** to urge all persons, firms and corporations, with which they have official contacts and which have obsolete metal equipment and facilities, to sell the same to scrap metal dealers as soon as possible. Since shipments of scrap to mills and foundries fall off during cold weather, it is necessary to combat this effect by devoting all efforts to making shipments **now.**

The Council stands ready to obtain any information which you may require and to help you in any way that it can in this endeavor.

Sincerely yours,

MILTON ALPERT.

NEW YORK STATE DEFENSE COUNCIL

RESOLUTION

WHEREAS, a critical shortage of heavy scrap-metal threatens to prevent continued maximum production by steel mills, foundries, smelters and refiners, and thereby to curtail further the present inadequate supply of fabricated metals, and

WHEREAS, continuance of maximum production by such plants is necessary in the interests of the defense effort and to provide necessary supplies of metals for the production of civilian goods, the construction of public works, the continuance of industries depen-

dent on adequate supplies of metals and the employment of persons engaged therein, and

WHEREAS, specialized campaigns have been instituted for the collection and shipment to such plants of obsolete heavy metal equipment, machinery or facilities now in business and industrial plants, in yards of dealers niscrap metals or wrecked automobiles, on farms, and in the possession of governmental agencies and public utility corporations, and

WHEREAS, pilot studies are now being made of the feasibility of collecting tin cans for the purpose of salvaging the tin and steel therein, and

WHEREAS, despite efforts heretofore and now being made in the current campaigns, including those heretofore undertaken by agencies of the State and of local government, recent shipments of heavy scrap metals to such plants have not been sufficient to assure continued maximum production, and

WHEREAS, the New York State Defense Council has been requested to mobilize assistance and support for such campaigns and it is the consensus of the Defense Council that it is imperative that an immediate all out effort must be made to provide the heavy scrap metals which such plants desperately need,

NOW, THEREFORE, BE IT RESOLVED, that the Defense Council hereby:

1. Urges all persons, firms and corporations possessing obsolete heavy metal equipment, machinery or facilities to take immediate action to make the same available as scrap for use by mills, foundries, smelters or refiners, and

2. Directs all agencies of state and local government, including local Defense Councils, to continue and vigorously press the efforts which they heretofore have undertaken to turn in publicly-owned scrap metals, and also to render immediate and full assistance to all other authorized scrap metal campaigns, and

3. Directs its Executive Secretary and Counsel to assist in the campaigns by making the facilities of the office and staff of the Defense Council available therefor, by furnishing information, and by coordinating the efforts of state and local governmental agencies therein, and be it further

RESOLVED, that copies of this Resolution be transmitted to heads of State agencies and to County Boards of Supervisors, Town Boards and City and Village Mayors.

The term "heavy scrap metals" includes machinery, tools, jigs,

dies, fixtures and other equipment which will not again be used.

COUNTY OF ULSTER
DEPARTMENT OF HEALTH
15 MAIN STREET, KINGSTON, N. Y.

January 10, 1952

Mr. Robert A. Snyder, Clerk
Ulster County Board of Supervisors
288 Wall Street
Kingston, New York

Dear Mr. Snyder:

May we request the Board of Supervisors to transfer the amount of $87.50 from unexpended salary funds in Line Item 2 Deputy Health Commissioner in the 1952 Health Department budget to the following salary line items which will need additional funds for the year:

Item	Amount	Transfer Requested	
12 (a)	Dental Hygienist	$75.00	
15 (j)	Stenographer Grade C to become B 12-1-52	12.50	$87.50

The reason for the request of an additional $75.00 for line item 12 (a) Dental Hygienist is to equalize the salary with that of Line Item 12 Dental Hygienist, thereby making the final appropriation $2990 instead of $2915.

The position for line item 15 (j) Stenographer was filled on December 1st; consequently an additional amount of $12.50 is needed for this item.

We note in checking our budget that errors were made in the following salary appropriations:

Item	Account
6 (k)	Public health nurse—$3165. This should be $3155.
19	Cleaner—$2240. This should be $2220.

Thank you for your consideration, and please notify us if the above request is approved.

Very truly yours,

Mr. Robert A. Snyder, Clerk
Ulster County Board of Supervisors

Kingston, New York

Dear Mr. Snyder:

With the departure of William O'Connor, who has served as assistant public health engineer in the Ulster County Health Department since its inception, the problem of his replacement was considered by the Board of Health at its January 14th meeting. They were advised by the Commissioner that it was very improbable, if not impossible, to find a replacement for Mr. O'Connor at the salary budgeted for the position for the year 1952. This statement was based upon the fact that there are other vacancies in the classification of the position Mr. O'Connor is accepting with the New York State Health Department.

It was deemed advisable to change the title of the engineering assistant to that of **"Junior public health engineer"**, the qualifications for which are less than for the assistant, and to correspond-

ingly lower the salary to a level commensurate with a corresponding position in the State Department of Health. The Board of Health therefore resolved that the title be changed to "Junior public health engineer" and that a salary of $4000 be established for the year 1952, with a maximum of $4450 to be acquired through three earned increments of $150.

It has become necessary with an increase in the technical work during the summer season to utilize the services of one of our Camp and Resort inspectors with advanced technical training, particularly in chemistry, for special field work. The Board of Health would therefore request that the compensation for one of the seven positions of Camp and Resort inspector be increased to $300 per month in lieu of the $220 now offered to enable the Board to employ a person with the qualifications necessary. The period of employment would be as presently outlined for Camp and Resort inspector, the additional monies necessary to be transferred from budget Line Item 8 Assistant public health engineer.

The Board respectfully requests the approval of the Board of Supervisors for the change in title and in the two salaries as scheduled. Early consdieration would be appreciated so that the County Civil Service Commission may supply us with an eligible list from which to make an appointment of Junior public health engineer.

Very truly yours,

ROBERT H. BROAD, M.D.
Heatlh Commissioner.

The Officers and Trustees of the Benedictine Hospital,
The Officers and Trustees of the Kingston Hospital, and
The President of the Medical Society, Ulster County.

Gentlemen:

The problem of ambulance service in the County of Ulster, and especially in the town of Marbletown is of vital concern to the members of this Parish Church. Circumstances surrounding recent accidents in this vicinity indicate that much is to be desired in the way of proper ambulance service.

We are cognizant of the fact that the overhead of an ambulance service is very great, and that such an addition as that of a Doctor would be very costly. Nevertheless, it would seem that proper service should include just that—an intern to ride each ambulance responding to emergency calls. Whatever the expense, the lives saved and|or the pain alleviated would more than compensate for the money involved.

We, the Vicar, Wardens, and Vestrymen of St. Peter's, therefore wish to go on record as being interested in any plans to improve ambulance service in this area, and pledge our official support to any program which may be evolved by the common consent of all parties concerned.

Gentlemen:

The Board of Directors of the Ulster County Cerebral Palsy Association wishes me to express its gratitude and its appreciation for your permission and approval of space in the Tumor Clinic Building for the inauguration of a Treatment Center for the Cerebral Palsied children in our county.

This has made possible a most auspicious beginning for this much needed service.

The response, on the part of parents, for this long hoped for help for their Cerebral Palsied children, has been immediate. There are twenty-five children enrolled, in need of physiotherapy, and since our opening on December 10th one hundred twenty-five treatments have been administered to date.

There are many more children suffering from this condition who, with the help now available, will come to light. Several parents of this group have already made application.

There are an estimated one hundred and twenty-five cases, including adults, in the county—forty of these are under twenty-one years of age and have been diagnosed.

Aside from the humanitarian need this service provides it has a definite economic status. A large majority of Cerebral Palsied children can be sufficiently habilitated to lead useful, self supporting lives and thus measurably relieve the community from providing custodial care to the helplessly crippled adults of the future.

Members of the Board are urgently requested to visit the Center during hours to see the nature of this treatment.

We are most grateful to you for your cooperation and support.

Very sincerely yours,

HENRY L. BIBBY,
President.

The Ulster County Board of Health at its April 14th meeting unanimously passed a resolution recommending that the Ulster County Board of Supervisors allow three rooms in the Tumor Clinic building to be used for this purpose, inasmuch as the rooms which were formerly used for Child Guidance Clinics at the Municipal building on East O'Reilly Street are no longer available.

Under Item No. 110 sub-division 500 of our budget we indicated the proposed expenditure for capital equipment of $5,000.00 for One Globe Hydraulic Truck Hoist. We have since determined that the installation of this hoist in our present shop facilities would not be practical and desire to expend this $5,000.00 for a piece of capital equipment, namely One Tandem Road Roller, a machine the type of which this department has none at this time.

We did advertise for bids returnable April 11th for a machine of this type and are able to purchase one delivered for the sum of $6,665.00 from Ken Smith Machinery Company, Inc. There is a bal-

RE: The People of the State of New York by Frank C. Moore, Comptroller vs. Lucy Rozzera, et al.—Foreclosure United States Deposit Fund Mortgage No. 401—Ulster Co.

Board of Supervisors
County of Ulster
Kingston, N. Y.

Gentlemen:

Sometime ago, the State of New York started foreclosure action as set forth in the title above upon the following described property:

County of Ulster, Town of Esopus,
New Paltz Patent

Part of Lot 8, in Second Tier, in north division of said

patent, being known on the division of the estate of William Deyo by Lot No. 3, bounded:—

BEGINNING at a stone marked with letters W.D. set in the ground in the north bounds of Lot No. 7; running thence along the same South 75° E 18.50 chains to a stake and stones; thence North 16° E 20.90 chains to a stone on the south line of Lot 9; thence running along the same North 76° W. 18.50 chains to a stake in the road; thence South 16° West 20.50 chains to the place of beginning, containing 37.9 acres.

AND

All that lot in the Town of Esopus, formerly New Paltz and known by the west end of Lot No. 1, in Lot No. 9 in Second Tier in the north division in said Patent, bounded:—

BEGINNING at a stone set in the ground marked P.F. and running North 4° 30' East 7.13 chains to a stone set in the ground; thence South 75° 30' East 41.80 chains to a stone set in the ground on top of a ledge; thence along the ledge South 4° 30' West 7.48 chains; thence North 75° 20' West 41.80 chains to the place of beginning, containing 30 acres, two roods."

Later we became confronted with the fact that a large amount of unpaid taxes had accumulated upon this property and other lands belonging to the defendant, Lucy Rozzera. We have talked with the County Treasurer with reference to this matter and he suggested that we take it up with the County Attorney and Board of Supervisors suggesting that passibly the penalties could be waived. We have talked with Mr. Stang your County Attorney who suggested that we give you the details of the situation together with our proposition.

We have taken the matter up with the Comptroller's office. They would be glad to take over the entire Rozzera land and pay the taxes on the whole as above but state to use as follows:

> "It does not appear that we have authority, either under the State Finance Law or the Tax Law, to pay taxes on and accept a deed to property not covered by our mortgage."

They state, however, that if the taxes could be separated they could pay the taxes on the portion mortgaged without penalty and accept a quit claim deed for the same.

Section 79 of the Tax Law would seem to establish authority that taxes covering more than one person's property can be separated permitting the owner of one property to pay the taxes on that property separately. A letter from your County Treasurer dated December 12, 1949 gives the amount of taxes on the entire Rozzera property as $432.50. This amount, of course, is now increased. If your Board will accept the taxes upon the mortgaged property without penalty and give to the State of New York a quit claim deed of such property, giving us the amount of such taxes to date we will endeavor to arrange with the Comptroller's office to make payment to you of such amount and receive a quit claim deed for the mortgaged premises.

Thanking you for your prompt attention, we are

In my recommendation for the County Budget for 1952 the sum of $12,000.00 was set aside for County Road No. 131, known as the Byrdcliffe Road in the Town of Woodstock. Due to the recent developments in the Town of Woodstock it is now requested that the sumof $8,000.00 be transferred from County Road No. 131 to County

No. 142 in the Town of Woodstock. The Town of Hurley section of this road is 80% completed and provides a short cut from Route 28 at Glenford to Mt. Tremper, Phoenicia and the northwesterly end ed. Will you please pass a resolution authorizing us to transfer this of the Town of Woodstock.

Town highways in the Town of Woodstock were badly damaged by the flood in March of 1951 and will require considerable funds to restore them to the condition in which they originally were. The Town of Woodstock feels that Town Highway funds should be used to improve the conditions noted above which affect Town of Woodstock residents rather than improve a section of Town Highway at this time that s on the propsed County Road System and the improvement of which would be more advantageous to the travelling public as a whole.

SUBJECT: Perrines Bridge

We all know that Perrines Bridge spanning the Wallkill River between the towns of Esopus and Rosendale is widely publicized as the "Oldest Covered Bridge" in New York State, and as such, attracts many tourists, vacationists, artists, engineers, and students, to our townships.

The bridge, a single wooden span, was built in 1850 by the towns of Esopus and Rosendale with the aid of Ulster County. Not only does this bridge have great charm because of its quaint construction and age, but it represents a remarkable example of the functional construction of the period.

May we ask the serious consideration of your Honorable Board and the County Superintendent of Highways to take the necessary action to recondition this historic bridge and may we also suggest that signs be placed on each end of the bridge describing its history and mentioning that it is being preserved by the Ulster County Board of Supervisors as a historic and cultural monument.

Cordially,

THOMAS BOHAN
President.

KINGSTON CHAMBER OF COMMERCE
KINGSTON, NEW YORK

August 13th, 1952

Mr. Robert A. Snyder, Clerk
Ulster County Board of Supervisors
Court House
Kingston, New York

Dear Mr. Snyder:

At a meeting of our Board of Directors last night, it was voted to request the Board of Supervisors to give careful consideration to the preservation of Perrine's Bridge as an historic relic and tourist attraction.

We all know that the resort business and tourists are a very important part of our economy. Due to the fact that Perrine's Bridge is the oldest wooden bridge in New York State, it should be preserved as an attraction which should become more important as years go by. It is definitely receiving more and more publicity and attracts more and more attention.

We trust that the Board of Supervisors will see their way clear to do a minimum amount of upkeep work on this bridge, so that it can be preserved for a long period of time.

Very truly yours,

KINGSTON CHAMBER OF
COMMERCE, INC.
LAWRENCE J. MacAVERY

ROSENDALE PUBLICITY COMMITTEE
ROSENDALE, ULSTER COUNTY, N. Y.

July 22, 1952

Ulster County Board of Supervisors
Court House, Wall Street,
Kingston, New York

Gentlemen:

Perrines Bridge spanning the Wallkill River between the Towns of Rosendale and Esopus was erected in 1850 by these two towns with the aid of Ulster County.

It was maintained by these two towns until 1940 when by unanimous vote the Board of Supervisors assumed the maintenance and preservation of the bridge for its historical and architectural value and placed the duty of preserving it under the jurisdiction of the County Superintendent of Highways and his successors with necessary moneys for such purposes to be drawn from the County Bridge Fund.

At that time, under Superintendent James F. Loughran, the bridge was re-roofed, repaired and placed in excellent condition and has remained so until a year ago when the ravages of time again make repairs necessary for its preservation. At the present time it looks forsaken and far from being the historic attraction it has so rightly earned.

Perrines Bridge is widely publicized as the oldest covered bridge in New York State and as such attracts to our township hundreds of tourists, vacationists and students. Besides its value as a romantic symbol of the past, this bridge is an economic asset to our resort houses and business places through the additional dollars derived from these visitors.

We ask the serious consideration of your Board and the County Superintendent of Highways to its present condition and trust that the necessary action be taken as soon as possible for its reconditioning.

We also suggest that signs be placed on each end of the bridge stating its history and that it is being preserved by the Board of

Supervisors as an historic monument in order to inform the public of its importance and influence others in its conservation.

Yours very truly,

ROSENDALE PUBLICITY
ASSOCIATION

Attention: Mr. Robert Snyder, Clerk

Dear Mr. Snyder:

I have been informed through the press and by friends, that Perrine's Covered Bridge over the Wallkill River is in a bad state of repair.

It is my recollection that several years ago the Board of Supervisors, by resolution, agreed to maintain this bridge as a historical monument in Ulster County. This bridge, as you probably know, has been in existence since 1850, and is a landmark known extensively by persons throughout the country who are interested in old bridges.

Will you be kind enough to bring this letter to the attention of the Board at its next meeting, since I hope that the Board will take affirmative action to see that the bridge is repaired and kept in good condition.

Very truly yours,

LLOYD R. LE FEVER

August 20, 1952.

The Honorable
Board of Supervisors, of
Ulster County, New York
Kingston, New York.

Gentlemen:

When I retired from active duty in the Navy after more than fourty-four years service I decided that there was no place like home; and so I came back to Kingston and Ulster County. In the entire Nation there is no more natural beauty nor historic background than we have in Ulster County one of the first ten counties in New York State.

On Sunday, August 17, 1952 one of the historic attractions of Ulster County gave up the ghost. It was Phillies Bridge and it collapsed into Walkill river. Now it is gone. Let us hope that such a catastrophe never happens to Perrine's Bridge.

As far as known Perrine's Bridge is the oldest in New York State and we should be proud that it is in Ulster County. It is my understanding that the Honorable Board of Supervisors of Ulster County controls the destiny of this historic bridge and that the Board is now considering the question of its preservation. The proposed Thruway might be planned to avoid the old wooden structure somewhat as a modern Connecticut highway bridge parallels an historic old bridge across a stream near the village of CORNWALL BRIDGE, Connecticut. I have great confidence in the Board of Supervisors and it will not permit anyone to "Tear down what time will never give again."

Respectfully,

A. S. HICKEY.

Gentlemen:

Since I started agitation about Perrine's Bridge, there has been quite some talk about it. Now I believe that Mr. Ed. Reben has asked the Board to repair the same, for the tercentenary of Kingston, and I understand the request was received quite favorably. Anyway, I want to be recorded as one who is in favor of it, and I ask your approval of the resolution.

Yours truly,

DEPARTMENT OF SOCIAL WELFARE

August 14, 1952

Mr. Robert Snyder, Clerk
Ulster County Board of Supervisors
Saugerties, New York

Dear Mr. Snyder:

On June 18, 1952 a general inspection was made of the Ulster County Home and Infirmary at New Paltz, New York. As you know these inspections are made in accordance with the authority provided by the Constitution of New York State and the Social Welfare Law. We are sending you a copy of the report of the visit.

We were pleased to observe that the very extensive rehabilitation program is being continued. Guests appear to be treated with kindness and consideration and there seems to be no restrictive practices. Diet is good, deetails of management appear to be well carried out; housekeeping and maintenance are at a high level in all areas.

On May 10, 1951 an inspection was made of the Infirmary and this institution was found to be in substantial conformance with

the Rules of the State Board of Social Welfare and the Regulations of the State Department of Social Welfare. It was approved, provisionally, as a medical care facility for the reception of persons receiving Old Age Assistance and Aid to the Disabled grants.

At that time certain recommendations were made; all but one of these have been carried out. In order to be in conformity with the Rules of the State Board of Social Welfare and the Regulations of the State Department of Social Welfare, it is necessary to have a complete blood count made on each new admissoin unless this test has been done very recently in the referring hospital. This is a mandatory requirement.

As a result of the present inspection there are two matters to which we feel it necessary to call your attention. Although records of all seriously ill patients were found to have progress notes, many records were found to be without any. It is a mandatory requirement that the physicians make progress notes on all charts at regular intervals.

In order to conform to the Public Health Law, the double hung window leading to the fire escape in the Infirmary should be changed to a full length outward opening door equipped with quick releasing hardware.

If at any time the staff of this department can be of assistance to the County Home and Infirmary, please do not hesitate to call upon us.

Yours sincerely,

R. B. GUILD,
Area Director.

September 4, 1952

Hon. Robert A. Snyder
Clerk of the Board of Supervisors
285 Wall Street
Kingston, N. Y.

Dear Sir:

It is respectfully requested that your honorable body pass the necessary resolution to transfer funds within the budget of the County Clerk, as follows:

(1) A transfer of $2,000.00 from Account 53-A-300 (Supplies and Materials) to Account 53-A-200 (Equipment non-capital) to provide for necessary filing equipment.

(2) A transfer of $2,300.00 from Account 53-A-300 (Supplies and Materials) to Account 53-B-100 (Personal Services in Motor Vehicle Bureau).

(3) A transfer of $500.00 from Account 53-A-100 (Personal Services, County Clerk as Register) to Account 53-B-100 (Personal Services, Motor Vehicle Bureau).

The transfer of funds to the Equipment Account is necessitated by the installation of new deed and mortgage index racks to care for the present and future recording services.

The transfer of funds to the Motor Vehicle, Personal Services, is coused by new legislation affecting insurance and weight requirements which has substantially increased the amount of detail work required of the Motor Vehicle Office. Also, there has been some slight increase due to the necessary overlapping of personnel during the training period brought about by the change of deputies.

It is called to the attention of your honorable body that I am not asking for additional funds for either the County Clerk's Office or the Motor Vehicle Department, but rather for a transfer of funds from within the limits and accounts already set up in the combined budgets.

Very truly yours,

HARRY D. SUTTON,
Ulster County Clerk.

Dear Mr. Chairman:

I am writing to submit herewith my resignation as a member of the Ulster County Board of Health and to request the honorable Board of Supervisors to take favorable action regarding it.

My sole and only reason for submitting my resignation at this

time is because of the present poor condition of my health. My recent illness seems to have been due to too much activity, and it now becomes advisable for me to limit that activity. It took a lot out of me and I have been advised by my physician that it will take time for me to get back to my old self. It is because I want to give myself a chance to regain my old self that I am submitting my resignation. I am sure that you and the members of the Board will appreciate my position and understand my reason for acting at this time.

I wish also at this time to express to the Honorable Board of Supervisors my very sincere appreciation of the confidence that they placed in me when they appointed me a member of the Board. I can honestly say that I have given my best to it and I hope that I have been able to contribute something to the success of its purposes. In submitting this resignation, I wish it to become effective at once and I trust that the honorable Board of Supervisors will accede to my request and act favorable on it.

Dear Sir:

According to the records in the files in this Bureau, the following counties in your district entered into an agreement for the control of snow and ice on State highways pursuant to Chapter 305 of the Laws of 1946, viz:

Name of County	Date of Agreement
Ulster	October 8, 1946

You will note in the provisions of subdivision 2 of section 12 of the Highway Law as such section was amended by Chapter 305 of the Laws of 1946, that any agreement authorized by the Chapter may, at the expiration of the first year and of the term and at the expiration of each annual period thereafter, be extended for an additional period of one year.

Superintendent Tallamy has asked me to recommend that you discuss with the representatives of each affected county within your District, the inclosed form of resolution which is suggested for consideration by the respective Boards of Supervisors in order to accomplish the additional one year extension.

As the particular Board of Supervsiors adopts the Resolution, three certified copies thereof should be sent to this office. When Superintendent Tallamy has indicated his acceptance and approval of the resolution upon the form provided at this time, the original will be filed with the Department of Audit and Control, the duplicate will be returned to you for delivery to the particular county, and the triplicate will be associated with the existing agreement on file in this Bureau.

Attention should be invited to the fact that the resolution as suggested in the inclosed form follows the statutory language. It is hoped that the inclosed proposed form will be acceptable in all cases, but if any County Attorney wishes to change the form materially, it would be helpful if the proposed form as he recommends it, be forwarded to the writer for review before it is submitted to the Board of Supervisors.

Your early attention to this matter will be appreciated.

Dear Mr. Snyder:

It has been suggested to me to send you the enclosed copy of my recommendation to the April term of the Grand Jurors, when we adjourned on August 25th. I have received a copy of the Kingston Daily Freeman, dated September 15th. with the gratifying news that the curfew law I suggest has been adopted there. However, it is astonishing to learn that an old law, in effect since 1906, was thus amended.

In your position as Clerk of the Board of Supervisors, I hope you will give this curfew deep consideration and help to make it a county-wide law which will be enforced rigidly. I am sure that the ultimate results will recompense for this effort.

Very truly yours,

ANGELICA M. McCLURE

August 25, 1952.

To whom it may concern:

While serving as a member of the Ulster County Grand Jury this summer, I have been especially interested in the crimes involv-

ing children. From my observation I find that too many parents and guardians of children are reluctant to accept the seriousness of this situation. They consider the freedom and self-expression of the youth to-day as modern. Only when their own child or ward is implicated in a crime, do they become alarmed.

I recommend that a curfew law be enforced in Ulster County for one year. That every person of sixteen years of age or under must be home by eleven o'clock at night, unless they are accompanied by a parent, guardian or an adult who is responsible for their safety and behavior.

If this law were rigidly enforced and the person who is legally responsible for the welfare of a child is punished, if the curfew is ignored; I think we may hope to find a great reduction in juvenile delinquency and youthful offender cases next year.

Dear Harry:

I am writing to you from Boston whereas I should have come in to see you when I was in Kingston recently. Circumstances prevented me from having that pleasure.

While in Kingston I had the privilege of being shown through the Tumor Clinic Building and was so thrilled with the facilities

that were available to the physicians of Kingston that I can't help but write to you and tell you all about it. You may not know, but I have been interested in the field of tumor work here in Boston, and am associated with four of the major tumor clinics in this region, including the Massachusetts General Hospital.

All that I can say is that the physical facilities of Kingston are far superior to many that we have here in our community. The people of Kingston ought to be proud and should be thankful that these wonderful facilities are available to them.

However, I was admittedly a little chagrined to find that facilities were put to such little use at this time. However, as the demand arises I am sure they will be available for such purpose.

Incidentally I also went through the City Laboratory and was more than impressed with Dr. Derman's facilities. It is so efficiently and well run that all I can say is that the people of Kingston have got a lot there that many other cities, including the larger cities, would be glad to duplicate. This no doubt reflects on the medical care that the people of Kingston are receiving from their physicians, since all this is available to them.

Sincerely yours,

The State Commission of Correction has approved the enclosed report of inspection of the Ulster County Jail, Kingston, dated August 26, 1952.

Will you kindly advise what action is contemplated regarding the recommendation therein.

Very truly yours,

GEORGE H. CULVER,
Secretary.

ULSTER COUNTY JAIL
KINGSTON

Inspected August 26, 1952. Cluett Schantz, sheriff. The custodial staff and there duties were detailed in the last report of inspection and they continue as noted at that time. Active supervision of the jail is provided at all times.

There were 39 prisoners at the time of inspection, classified as follows:

	MALES		FEMALES
	Adults	Minors	Adults
Awaiting court action	17	4	—
Serving sentence	16	—	2
Total	33	4	2

The prisoners were classified as required by the provisions of the Correction Law and the records were up to date and in order. They indicated that the highest population since the first of the current year was 41, the lowest was 12, and the daily average 35.

The jail, which contains 46 cells for males and 13 for females, was clean and in good order throughout at the time of inspection, an examination of all occupied and unoccupied cells disclosing no contraband of any nature or no unnecessary articles of any type. The entire jail basement, including the kitchen was painted and some improvement has been made in the jailer's waiting room. Niche toilets which are still in use in the 14 cells for females should eventually be replaced with modern fixtures and the niches permanently closed.

Plans for the addition of a fourth floor in the quarters for males and for a visiting room, which were approved by the Commission some time ago, remain in an inactive status. In this connection, it should again be noted that the present detention quarters are not adequate to provide for proper classification of prisoners at all times and the present visiting arrangement is awkward and a security hazard. These are compelling factors which indicate that the completion of the needed improvements should not be delayed indefinitely.

It would appear that the situation as regards the meals served is satisfactory. Foodstuffs on hand were stored properly.

Administrative procedures otherwise continue as detailed in the last report of inspection.

RECOMMENDATION

That the visiting facilities be improved at the first opportunity. (renewed)

ATTENTION: Mr. Robert Snyder, Clerk

Gentlemen:

Please be advised that I have been retained by the Kingston Uptown Business Men's Association, Inc. for the purpose of presenting to this Honorable Board a plan which the association feels will greatly benefit the people of Kingston and Ulster County.

It has become increasingly obvious that the parking situation in the uptown business district of the city has reached a deplorable state. Business in this area has and will continue to suffer unless the most efficient possible use is made of the available parking space.

The members of the Uptown Business Men's Asscciation, Inc. comprise at least 90% of the merchants in the area and as such are intimately familiar with the problem. Observation by the members individually and discussion of the problem at great length in meetings has led to the inescapable conclusion that the parking lot maintained by the county in the area between John and Green Streets should be reserved exclusively for shoppers. The reason for this being that it is the most centrally located with relation to all of the shops and it is the one to which most shoppers instinctively come before looking elsewhere.

It is the observation of the association and its members that the average shopper is in the uptown area for about two hours. The association feels that the shoppers are entitled to every possible comfort and convenience in their visits to this district. We know that this honorable board shares this feeling.

The fact is, however, that the shoppers are not receiving proper attention with regards to parking. The above mentioned parking lot is used practically exclusively by people who work in the uptown area with the result that the turnover in parking is no more than one and one half times per day. In other words, the lot is not performing its proper function of serving the most number of people.

With this thought in mind the Uptown Business Men's Association, Inc. proposes the following plan to the honorable Board of Supervisors of Ulster County:

Ulster County shall lease the parking lot in question to the Kingston Uptown Business Men's Association for a nominal rent. In return the Association will, at its own expense operate and maintain the said lot under a plan of controlled parking. The present attendant will be retained by the association at his present salary. The association will pay for all maintenance, liability, insurance, etc. except that the county will continue to remove snow from the lot is it has in the past.

The conrtolled parking plan will operate roughly, as follows:

When a customer parks in the lot he will be given a ticket which will entitle him to two hours of free parking if he has it stamped in one of the banks, shops or offices in the area. If not, he will pay a parking fee (probably about twenty-five cents). Parking after the first two hours will cost about twenty-five cents per two hour period. Membership in the Association will not be a prerequisite to any business, bank or office to have a free parking stamp for customers.

Under this plan the turnover in the parking lot should be from four to six times per day instead of the estimated one to one and a half times at the present time.

The association has not overlooked the inconvenience this would cause to the merchants, their employees and others who now use the lot for all day parking. To prevent this inconvenience, the association has leased a large parking area on Converse Street which can accomodate all day parking. This lot is more removed from the center of the shopping district but is close enough to be convenient for those who work in the uptown area.

The saving to the county in money under this plan will be substantial and the people of the county and city will benefit greatly in having a convenient place to park for shopping.

There are many other considerations in favor of this plan which I will be glad to present to the Board of Supervisors at the next meeting.

Very truly yours,

JAMES J. ABERNETHY

COUNTY OF ULSTER
OFFICE OF CIVIL DEFENSE
41 PEARL STREET, KINGSTON, NEW YORK

November 15, 1952

To the Honorable,
The Board of Supervisors,
Kingston, New York

Gentlemen:

In accordance with the New York State Civil Defense Act of 1950, Cities and Counties in the State of New York were directed to organize local Civil Defense Organizations. A Civil Defense Organization was set up by your Honorable Body on a voluntary basis

known as the Office of Civil Defense of the County of Ulster. A similar organization, entirely separate from the County was set up by the City of Kingston. The County organization has jurisdiction and authorization from Board of Supervisors which encompasses the County of Ulster, excluding the City of Kingston. Recently the New York State Civil Defense organization has recommended the consolidation of separate City and County Defense Organizations which exist within a single County, with the exception of organizations in large Metropolitan areas such as New York City.

Your County Civil Defense Organization has given careful consideration and study to the matter of consolidation of the County and City Defense organizations in Ulster County. We feel that the maintenance of two such organizations is inefficient and wasteful both from the standpoint of available funds and man power. The work of both organizations is, in most instances, identical. The establishment of an office that would have jurisdiction over both City and County would bring about central control, would eliminate duplication of effort and duplication of expenditure in both money and personnel. Furthermore, such centralization, with the resulting savings in money and personnel, will permit the establishment of a central headquarters with a paid individual to act as secretary, and responsible for continuing contacts and active work in recruitment, training, public information and in connection with the very substantial amount of detail and reports required by the State Civil Defense Commission.

The pressure from the New York State Civil Defense Headquarters has been increasing steadily during the past six months. The County is required to man eight Observation Posts for aircraft spotting on a 24 hour basis. We are being directed to accomplish this as a "direct order" under the Civil Defense Act. Ulster County is one of seven so called "Support Counties" to assist the City of New York in the event of an Atom Bomb attack. This involves our being organized and prepared to care for evacuees from the strickened area and also being prepared to send aid to the strickened area if required. Planning and organization along these lines has been accomplished. At present we are working with New York City on an actual test problem to take place in December in the Bronx.

We are sure that the personnel already engaged in executive activities are willing to work along in every way possible in the event of consolidation. It is evident that with the establishment of

a permanent central office a good deal of the detail work would be absorbed by the consolidated set-up. A natural result of consolidation should be a more efficient operation and closer co-ordination of all of the defense activities within the County boundaries. It is a fact that many of the County activities, of necessity, must be centered in the City. This is most evident in the matter of transportation, welfare, public health and security.

It is respectfully recommended that your Honorable Body pass the necessary resolution to approve a consolidation of the Office of Civil Defense of Ulster County with the Office of Civil Defense of the City of Kingston, and that the new organization, if approved, be known as The Ulster-Kingston Civil Defense Council.

Please be assured that the individuals associated at the present time with The Office of Civil Defense of Ulster County will be of all possible assistance in effecting such consolidation.

A letter making a similar recommendation to the Common Council of the City of Kingston is being transmitted to the Council by the Director of Civil Defense of the City of Kingston.

Respectfully submitted,

ALLAN L. HANSTEIN,
Director.

Dear Sir:

In 1951 six counties in the State were operating Fire Service Radio. Considerable advance, in this type of communication, has been made throughout the State in 1952. At present twenty-eight counties have systems in operation.

The Federal Government, through legislation, has made it possible for counties to purchase fire equipment and communication equipment on a matching basis.

The approximate cost to Ulster County for a system of communication which would include the following:

250 watt base station installed with a portable generator, 45-60 watt mobile units installed in fire units, selective call and receiver units in each of 45 county locations amounts to $40,000. (This is only estimate and actual bid should be less) (On basis of $40,000 cost—Ulster share would be $20,000).

As Fire Coordinator of the County of Ulster and a member of a special committee from the Ulster County Firemen's Association, I respectfully request that funds be appropriated for the purchase of a radio system.

Dear Mr. Snyder:

The Ulster County Tumor Clinic recently received from the

New York State Division of the American Cancer Society a check in the amount of $5,000. This amount was donated to help cover operating expenses of the Clinic for the period of September 1, 1952 to August 31, 1953.

In order to make use of these moneys during the period indicated we plan to expend one-third of this amount, or $1,665 during the current year. The remainder, or $3,335 we plan to use during the first eight months of 1953. I should, therefore, like to have this amount earmarked for our use in 1953.

December 11, 1952

To The Honorable,
The Board of Supervisors

Gentlemen:

On the 25ht and 26th days of November, 1950, there happened a devastating flood in the Esopus Creek causing considerable damage especially to two bridges in the Town of Shandaken, one known as

the Holden Bridge and designated as County Bridge No. 103, and another known as the Donahue Bridge and designated as County Bridge No. 160. These bridges were totally wrecked and their parts washed down the creek causing a total loss. Provision was made by your Honorable Body for the erection and care for temporary structures in view of the isolated condition created especially at Big Indian.

I had plans, specifications and form of contract prepared and through the medium of the Kingston Daily Freeman, the Kingston News Leader and the Engineering News did advertise for proposals or bids to be submitted to the Clerk of your Board on the 4th day of December, 1952 at which time proposals or bids were publicly opened by your Clerk. I have checked over these proposals and believe that the prices submitted therein especially those of the lowest bidders to be consistent. There is attached herewith a list showing the names, addresses and lump sum bids for the two bridges now under consideration and believing it to be to the interest of the County of Ulster, I do recommend to you that favorable action be taken in the awarding of contracts to the two lowest bidders.

Respectfully yours,

JAMES F. LOUGHRAN,

Gentlemen:

I hereby request the transfer of $400.00 from the General Fund for the purchase of an APECO Auto-stat Copier with equipment for use in photostating discharges and other papers pertinent to our work in veterans affairs. At the present time there are a considerable number of men returning from Korean service and often times a copy of the discharge is needed at once. The photostat machine of the County Clerk is often not in operation at that time and a delay is encountered. It will also be noted that the entire cost of this equipment is considerably less than the cost of the paper alone for photostatic copies supplied through the photostat machine. The

amount of money requested will purchase the machine, with enough paper and concentrate to operate for several months under ordinary circumstances and replacement of paper and concentrate is very reasonable.

This machine is at present in use by the Metropolitan Insurance Company Record Division, Needes Express Company, J. Richard Miller and other businesses in Kingston and near by.

Your favorable consideration of this request will be greatly appreciated.

Respectfully,

HOWARD C. SHURTER
Director, Ulster County

OFFICE OF
THE BOARD OF ELECTIONS OF ULSTER COUNTY
COUNTY BUILDING, 74 JOHN STREET, KINGSTON, N. Y.

December 26, 1952

To The Honorable,
The Board of Supervisors,
County Court House,
Kingston, N. Y.

Gentlemen:

Because of lack of adequate storage space the Board of Elections of Ulster County is unable to preserve its records and especially the registers of voters beyond about six years. On many occasions, however, we have received requests for information going beyond such period which of couse, we have not been able to furnish.

Inquiries are frequently directed to our Board by individuals; by corporations; by governmental departments and by law enforcement agencies of both state and Federal authorities including the F. B. I. Most of the information sought is of great importance to the person seeking the same.

At a meeting of the Board of Elections held on December 24th,

1952, it was decided that the matter be brought to the attention of the Board of Supervisors so that they might take under consideration the advisability of having the records, or at least the registers of the voters either photostated or else preserved on microfilm. If this does not appear feasible, perhaps your body could arrive at some other solution of this problem of storing and preserving the records of this office for a longer period than is now possible.

We shall deeply appreciate anything your Honorable Board may be able to do in this regard.

Respectfully yours,

To The Honorable,
The Board of Supervisors,
Kingston, New York

Gentlemen:

On May 25, 1951, your Honorable Body passed Resolution No. 25, which provided for the establishment of a $100.00 Petty Cash Fund for use of the County Clerk's office and the Motor Vehicle office.

We find, after a year's operation of the Petty Cash Fund, that $100.00 is not sufficient to adequately handle the charges against it of the combined offices. Therefore, I respectfully request that your

Honorable Body adopt the necessary resolution to increase this fund from the present $100.00 to $200.00

Very truly yours,

HAROLD D. SUTTON
County Clerk.

Dear Mr. Denniston,

On November 26th a committee from the Ulster County Volunteer Firemen's Association requested an appropriation of funds for a two-way radio system for the County Fire Service.

A complete plan could not be submitted at that time due to circumstances beyond the control of the committee. Since that date, the committee has spent considerable time and effort to formulate a plan which we would like to present to the Board for a favorable action.

Very truly yours,

Reports of Committees

REPORT OF THE ULSTER COUNTY PUBLICITY COMMITTEE OF THE BOARD OF SUPERVISORS 1952

The Board of Supervisor's appropriation for carrying on the County Resort Advertising Program was used by our Committee for advertising in the New York City newspapers; publishing Ulster County folders, Winter Sports Folders, Ulster County Touring Folders and continuing our co-operation with national and state organizations for obtaining the greatest amount of publicity for the improvement of our County's largest industry.

The Greene County Board of Supervisors continued their appropriation as their part of the co-operative program of Ulster-Greene Counties Vacationland.

Ulster County Folders

We published 35,000 Ulster County folders using the same cover, new text and new pictures. These were distributed through the following media:—334 agencies, such as, travel bureaus, information centers, transportation companies, large corporations, automobile associations, Chambers of Commerce and similar agencies in 20 States, Washington, D. C., Canada and West Indies.

They were used in answering 2,551 direct mail inquiries received from our newspaper advertising program, 569 direct mail inquiries and 26,418 referral inquiries from the advertising program of the New York State Department of Commerce. They were distributed through travel shows in New York, Boston, Chicago, Cleveland, Detroit and Saratoga Springs; at the annual convention of the New York Horticultural Society, American Legion, B.P.O.E. Convention in New York City, Edison Electric Institute at Yale University and at the National Association of Travel Organizations annual meeting at San Diego, California.

Ulster County Touring Folders

We distributed 25,000 Ulster County Touring Folders. These em-

phasized the scenic, historic and year-round recreational features of the County, especially along the Shawangunk, Minnewaska and Onteora Trails and, also, featured the historic places in conjunction with Kingston's 300th Anniversary and the old stone houses of Hurley and New Paltz. The folder also contained material on Belleayre Mountain, agricultural features and facilities of our modern communities. These were distributed by mail and through the 119 automobile clubs, gasoline companies and touring bureaus in New York, 11 other eastern States and Canada. They attracted a great number of travelers seeking scenic and historic features for vacations.

Winter Sports Folders

We published 5,000 Winter Sports Folders on the winter sports centers at Belleayre Mountain, Highmount, Pine Hill, Big Indian-Oliverea, Phoenicia, Rosendale, Napanoch, Ellenville and Cragsmoor. These folders were distributed through 129 agencies and ski clubs in the eastern part of the United States.

Newspaper Advertising

We ran 1,660 lines of banner head advertising in the New York News, Times, Journal-American, Herald Tribune, Post, Catholic News, Mirror and World Telegram, covering a period from April 27 to October 5. In addition to the advertising, these New York papers ran numerous feature articles on our County and distributed our literature through their travel bureaus.

The local newspapers carried numerous articles on our promotional program that was of great importance to our endeavors.

Town and Community Directories

There are 16 communities in this County working co-operatively in our promotional program and this year they published 72,000 directories. The communities are Ellenville (Town of Wawarsing), Big-Indian-Oliverea, Highland (Town of Lloyd). City of Kingston, Mt. Marion, Phoenicia, Pine Hill and the Towns of Esopus, Hurley, Marbletown, Rochester, Rosendale, Olive, Saugerties, Shawangunk and Woodstock.

These directories contain pertinent detailed information desired vacationists, which cannot be included in the County folders; in-

formation on descriptions of individual communities; lists of hotels and resorts; rates; social and recreational activities and other information so important to our program.

We again gave our assistance to the local organizations in the preparation of their folders and their distribution. Over 90% of these town directories were used in answering our direct mail inquiries, were distributed through the 334 agencies or were used by the town organizations in answering referral cards from the Department of Commerce. The town folders have been distributed through the same agencies as used by the County.

Additional Publicity

Each of the metropolitan newspapers in which we carry our advertising program published feature articles on our County. Some ran four or five stories during the course of the year. In addition we had articles in the national magazines, including American Magazine, Better Homes and Gardens, Mademoiselle and Highway Traveler. This is in addition to the publicity obtained for us by the Department of Commerce.

New York State Department of Commerce

Again this year the New York State Department of Commerce and its Travel Bureau was of the greatest assistance to our program. The County was prominently featured in over 700,000 winter and summer booklets distributed by them. It was also featured in their radio, movie and television programs and they distributed our county and town literature through their booths at travel shows in New York, Boston, Chicago, Cleveland, Detroit and Saratoga Springs. From their news releases we received 11 pages of publicity on this region in newspapers and magazines which have a circulation of 34 million.

In processing the referral cards received from the Department, we mailed out over 20,000 county folders and then distributed these inquiries to the town organizations who in turn mailed out town folders and booklets from the various hotels and resorts.

National Editorial Association

Due to the co-operation of the New York State Department of Commerce, 200 editors and their wives and families toured the

Catskill-Shawangunk region as part of the post-convention tour of New York State with a stop-over at Lake Minnewaska. A great number of these weekly news editors came from the middle and western states, had never before visited this area and they have since written numerous articles on the beauties of our region. This should open up to us through their readers the possibility of increased clientele in the future.

Kingston's 300th Anniversary

We assisted in the promotion of the 300th Anniversary Program of the City of Kingston. We helped in the preparation of their material, publicizing the efforts in our literature and folders, sent out news releases and articles and assisted in the promotion of visitation days to the historic locations of Kingston, Hurley and New Paltz.

Business Results

Travel business on the holidays during this year was tremendous. On Decoration Day, 4th of July and Labor Day we were filled to capacity. Columbus Day was far better than previous years. The hot weather of the latter part of June, July and August filled our cottages, bungalows and camps and the large, well-organized houses enjoyed one of the best seasons in years. Some of these houses established new records. Smaller houses had a very profitable season; in many instances they greatly exceeded a year ago. September and October business was better than usual. Autumn foliage brought hundreds of visitors to this area and the hunting season produced more traffic and more business than any year in the past.

Highway traffic on our main arteries was 11% heavier than it was a year ago.

The Towns report their resort business ranging from as good as 1951 to as high as 50% better. The average increase for the County is between 20% and 25% over 1951.

35,000 people rode the ski lift at Belleayre Mountain last Winter and enjoyed 94 days of skiing. Between Decoration Day and Columbus Day 23,000 people rode the chair lift to the Mountain Top. This is an outstanding report on the increased popularity of this Development and an indication of the influence it is having and will have

on the business of this area. Because of this popularity, all other ski centers had several successful weekends of operation.

Acknowledgment

We again express our appreciation to our public officials, news editors, radio stations, community organizations, travel agencies, and metropolitan newspapers for the assistance they have given us on our program.

We especially thank the New York State Department of Commerce for their outstanding contribution to our success.

Recommendations

The Committee plans to publish the three County folders again this year and urge every town organization to publish their directories in sufficient additional quantities to take care of the increased direct mail and referral inquiries from the Department of Commerce.

We plan to run banner head advertising and urge our communities and resort operators to group their ads with ours in order to make the set-up more impressive and produce better results for everyone.

In these days of modern, public buildings, schools, homes and business places, we cannot hope to attract the present day vacationist without furnishing modern accommodations. We, therefore, urge our community organizations to adopt clean-up-dress-up modernization programs by the elimination of rubbage along the highways and streams, planting of flowers and shrubbery and by making our towns and resorts as modern and as attractive as possible. This is the only way we can influence people to stay with us.

We recommend strongly the need of better services, more hospitality, comfortable rooms, good food and a diversified program of sports and recreation.

We urge our smaller resort operators to combine with their neighbors in furnishing these services on a group or community basis.

We again offer our assistance to our communities in the pre-

paration and distribution of their literature and the furthering of their promotional program.

Respectfully submitted,

REPORT OF BUDGET COMMITTEE

Whereas, pursuant to the provisions of Article 7 of Chapter 691 of the Laws of 1950 amending the County Law, Chairman of the Board of Supervisors of Ulster County appointed a Budget Committee to examine the tentative budget as filed with the Clerk of the Board of Supervisors by the Budget Officer. That your committee upon the invitation of the Budget Officer attended a number of meetings and hearings held by the Budget Officer in connection with the items of the proposed tentative budget as submitted by the various department heads.

That your committee submitted herewith the proposed tentative budget for the consideration and approval of this Board. It will be noted that the gross budget is approximately the same as last year. However, because of increased revenue estimates and appropriated surpluses and revenues, the net budget and tax levy represents a reduction of approximately $250,000.00.

Respectfully submitted,

ROY F. DENNISTON,
KENNETH L. WILSON,
ALBERT N. COOK,
PETER WILLIAMS,
JOHN J. GAFFNEY,
Committee.

OFFICE OF THE BOARD OF ELECTIONS
ULSTER COUNTY

Kingston, N. Y.
January 6, 1953

To
The Honorable Board of Supervisors of Ulster County

Gentlemen:

Pursuant to the provisions of Section 34 of the Election Law, the Board of Elections of Ulster County respectfully submits its annual report for the year 1952.

Your Board has completed the tabulation of the enrollment for the year 1952 and a copy thereof is hereby attached and made a part of this report.

The complete tabulation of the enrollment for the year 1952 shows a total of 51,624 as follows:

Republican	28,045
Democratic	7,903
Liberal	84
American Labor	50
Blank enrollment	15,542

For the 13 Wards in the City of Kingston the tabulation is as follows: Republicans, 5,781; Democrats, 1,467; Liberal, 11 and American Labor, 7. There were 8,557 blank enrollments in the City of Kingston.

This shows an increase of 9,357 over that of the year 1951 and an increase of 6,472 over that of the year 1948.

SPRING PRIMARY

The quadrennial spring Primary election was held throughout the County of Ulster on April 22, 1952.

Elected at the spring Primary election were Congressional District Delegates and Alternate-delegates to National Conventions, also members of State Committee and members of County Committees whose term of office expire in 1952.

In compliance with the statute, petitions were duly filed and examined by your Board. The notice of Primary election and list of polling places in the City of Kingston were duly published according to the provisions of the Election Law.

There was a change in the election law this year in the form of petitions in section 135, Election Law, Chapter 351, Laws of 1951 which provides that a subscribing witness must be an enrolled voter of the same political party and a resident of the same political subdivision as the voters qualified to sign the petition; however in the case of a petition for members of the County committee, residence of the subscribing witness in the same assembly district is sufficient.

Official and sample ballots for all parties were duly prepared and sufficient numbers of each were procured and supplied to all election districts throughout the County of Ulster and City of Kingston. As provided in the election law, only those persons who were enrolled in a particular party were able to participate in the spring Primary election.

The results of said spring Primary election as canvassed by this Board were as follows:

Republican high vote	1,543
Democratic high vote	485
Liberal high vote	2
American Labor high vote	0

The total cost for the conduct of such spring Primary election was $8,389.31.

CENTRAL REGISTRATION

Your Board conducted Central Registration at its office between June 2nd, 1952 and September 26th, 1952 inclusive. The total number of persons registered by the Central Registration Board for the year 1952 was 125. Of this number 100 registered and applied for absentee ballots and in the county of Ulster outside the City of Kingston, your Board filled out 81 applications for absentee ballots mak- a total of 206 persons who personally appeared at the Board of Elections during the period of Central Registration. This is a considerable increase over the number of persons registered in the year 1952.

VOTING CERTIFICATES

96 Voting Certificates were issued by your Board to people who wished to establish citizenship in the United States by those who were traveling outside the boundaries of the United States. There is no charge for the issuance of this certificate, so there is quite a demand especially by one of our local Travel Agencies.

FALL PRIMARY ELECTION

Fall Primary for the year 1952 occurred on August 19th, 1952. The hours for voting thereat were from twelve o'clock noon to 9 P. M. Notices of such Primary election were prepared and published in the two local newspapers, together with a list of polling places in the City of Kingston.

Designating petitions of the Republican, Democratic and American Labor parties as filed were duly examined and found to be in accordance with the provisions of the election law.

All persons designated for public office as appeared on the designating petitions were mailed notices to this effect. And in accordance with its duties, the Board prepared and furnished the necessary official and sample ballots for all parties in all election districts in the County and in the City of Kingston.

Your Board canvassed the vote cast at such Primary election, the result of which is as follows:

Republican high vote	995
Democratic high vote	496
Liberal high vote	—
American Labor high vote	3

The total cost for the conduct of such Primary Election was $6,899.71.

REGISTRATION OF VOTERS

Registration in the City of Kingston which is required by law to be personal, occurred on October 3, 4, 10 and 11th, 1952. In the County districts outside the City of Kingston, where the registration is non-personal, the days of registration were October 4th and 11th.

The total registration for the year 1952 was 66,509 of which 33,212 were males and 33,297 were females. This makes a total of 3,545 more persons registered in the year 1952 over that of the year 1951.

The cost of the conduct of such registration was $1,893.22.

ABSENTEE VOTING

The year 1952 was a record year for voting by absentee ballot as 944 persons applied by mail or direct to the Board of Elections for applications for absentee voting. Of this amount 663 were applicants in the County of Ulster and 281 applicants were residents of the City of Kingston. Of this amount of ballots mailed out, 781 were returned. 44 applications were rejected by the Commissioners of Elections for the reason that they did not meet the requirements of the election law..

DIVISION FOR SERVICEMEN'S VOTING

The total number of applications for servicemen's voting forwarded by the Division to your Board was 482. The total number of voted military ballots forwarded by the Division to your Board was 456. The total number of voted military ballots received by your Board directly and not forwarded to the Division was 5. The total number of voted military ballots canvassed was 461. And the total number of military voters who appeared in person and voted on the machines was 3.

Te total number of applications forwarded by the Division to your Board of dependents of servicemen was 56. The total number of voted military ballots forwarded by the Division to your Board of dependent of servicemen was 47.

GENERAL ELECTION

General Election occurred on November 4, 1952 with the hours for voting thereat were from 6 A.M. to 9 P. M. During these hours the Custodians of Elections with members of the Board of Elections were on hand in case any trouble arose with the machines and to answer any information pertinent to the election.

Notices of general election were prepared together with a list of names of candidates which were published in the two local news-

papers in accordance with the election law. Your Board also furnished the required number of list of nominations to be posted throughout the County and the City of Kingston. The necessary ballots for all the voting machines in the County and the City of Kingston, also sample ballots for all districts were furnished and all other supplies for the proper conduct of the election.

This year due to the fact that the Freeman Publishing Company discontinued the Job Printing Department, it was necessary to have the work done elsewhere.

Through bids submitted, the Saugerties Post received the job of doing the General Election supplies, ballots, statements of convass etc. Of course this required longer time for submitting proof and rechecking same but we were able to get all supplies out on time to the election districts in the County and the City of Kingston.

The expenses in connection with the general election were $6,294.36.

In accordance with Section 274 of the Election Law, a bi-partisan committee was appointed for the purpose of making a re-canvass of the voting machines in each election district throughout the County of Ulster and the City of Kingston. This re-canvass was made on November 5, 1952. Notices were sent to all persons entitled thereto in accordance with the provisions of the statute.

On November 6, 1952 the County Board of Elections convened as a Board of County Canvassers as required by statute and the official results of such canvass were submitted to the Secretary of State and the Attorney General of the State of New York. Certificates of determination were issued to all County officers determined by such official canvass to have been elected to each County office.

Copies of the enrollment were again printed in pamphlet form for the year 1952 and certified copies of the same were sent to the various Chairmen of the recognized political parties. Copies were also distributed to members of the County and City Committees of the various political parties and to candidates for public office.

The following is a summary of the list of expenses incurred by the Board of Elections in connection with the conduct of its affairs for the year 1952.

Spring Primary Election	$ 8,389.31
Fall Primary Election	6,899.71

Miscellaneous	211.46
Voting Machine Custodians (Re-Canvass)	214.00

All of which is respectfully submitted.
